"Consistent Progress"

SKILLS

Programming

C, C++, Python, Java, JavaScript

Web Development

HTML, CSS, React.js

Backend

Node.js, Express.js, REST APIs, Socket.IO

Database

MySQL, MongoDB, Mongoose

AI / ML

AI Fundamentals, Machine Learning with Python

Tools

Git, GitHub, VS Code, Linux / Red Hat

Core CS

OOP, DBMS, Computer Networks

LANGUAGES

- Hindi Native
- English Professional
- Maithili Native

INTERESTS

- AI / ML
- Full-Stack Development
- Creative Technology
- Coding
- Building Digital Products

"Learn Build Improve"

A Better Tomorrow"

PROFILE

B.Tech Computer Science Engineering student specializing in Artificial Intelligence & Machine Learning, with practical experience in software development, web technologies and AI/ML. Experienced through projects, hackathons and a societal internship. Focused on building real-world solutions and continuously learning new technologies.

Target: Software / AI-ML Internships | Web Development | Freelance Projects

EXPERIENCE & LEADERSHIP

- Societal Internship — Education-focused** Community Based
 - Completed an education-related societal internship involving community activities, teamwork and practical field exposure.
- IBM Internal College Hackathon — Team Leader** Internal Hackathon
 - Led a student team through ideation, development and technical presentation during an internal IBM hackathon.
- Smart India Hackathon (SIH) 2026 — Participant** SIH 2026
 - Contributing to project development, technical planning and presentation as part of an SIH 2026 team.

PROJECTS

WeatherGPT / Weather Intelligence

React.js JavaScript Weather APIs AI/ML

- Building an intelligent weather platform that turns weather data into conversational, user-focused insights.
- Working on API integration, data handling and a clean interface for actionable weather information.
- Developed with hackathon-oriented product thinking and real-world use cases in mind.

ChatX — Real-Time Chat Application

React.js Node.js Express.js MongoDB Socket.IO

- Developed a WhatsApp-style real-time messaging application with a structured Node/Express backend.
- Worked with MongoDB/Mongoose for data persistence and Socket.IO for real-time communication.
- Explored authentication, messaging and scalable chat architecture.

EDUCATION

Ganpat University 2025 – 2029 (Expected)
B.Tech — Computer Science Engineering (AI & ML)
3rd Semester | CGPA: 6.85/10 | Sem 1: 6.50 | Sem 2: 7.21
Class XII: 75.8% | Class X: 79.9%

CERTIFICATIONS

- IBM — C Programming, C++, Python
- Red Hat — Web Design, Linux
- Cisco — CCNA
- Introduction to AI
- Azure Services Basics
- Python for Beginners
- Machine Learning Using Python
